What's your favorite holiday? Christmas of course! :)

If you could be animal, what would you be and why? I would be a happy healthy dog. I love that they are sweet affectionate animals. I hope I would be a dog in a good home... a home that would take me camping and to the beach and hiking! ha!

Why do you want to become a donor? I know some family friends of ours that tried very hard to conceive. They met with fertility specialists and did everything they could to get pregnant with their daughter. I know how important it was to them and I watched them struggle through the different obstacles that presented themselves. I told myself that if I could help in any way that I would do it. Shortly after I learned about being an egg donor. I think it's a great way for me to help another couple in a similar situation.

Do you have a message you would like to share with the recipients? If you choose me, I hope that you are able to enjoy a beautiful and energetic baby boy or girl. I hope that this process will be the end of some of your grief and heartache of not being able to conceive on your own. I hope that you will love and adore and cherish the newest member of your family! :)
